

2018 IFTA World Therapy Congress

Bangkok, Thailand

March 8 – 10, 2018

Welcome to the IFTA Congress

Dear Colleagues,

Welcome to the beautiful Bangkok and Thailand! This is the International Family Therapy Association's 2018 World Family Therapy Congress.

This is another of those rare and wonderful opportunities in which we can renew ourselves and enrich our practice skills in family therapy. The goal for the congress, in a larger sense, is the same as it has been since IFTA was founded in 1987: Advancing family therapy worldwide by promoting research, education, sound practice, and promoting international cooperation. We hope that this Congress facilitates an exchange of knowledge and ideas that support the health and well-being of families and other human systems. The Congress provides magnificent opportunities for face-to-face sharing of ideas and networking with colleagues from various parts of the globe.

The 2018 Congress Committee decided to go without a theme this year, inviting family therapists to explore both new and familiar ways to assist families.

We live simultaneously in "one world" and many worlds. Thus, family therapy is a mutual, interactive process in which we learn new ways from colleagues from many lands. Communicating and networking among over 250 therapists from over 25 countries during this congress will provide professional contacts and information to support the exchange of knowledge and the growth of family therapy in many countries.

We hope you will share and learn about dealing with old, familiar problems and new, unfamiliar challenges we may not have faced previously.

Warwick Phipps

Warwick Phipps, Ph.D.
President

IFTA: Celebrating 30+ Years

The International Family Therapy Association was an outgrowth of the East-West Bridging Congress conducted in Prague in 1987 with Virginia Satir and Donald Bloch as the Honorary Vice Presidents. After two years of organizational work including creating a Founding Board of Directors, with Virginia Satir on the Founding Board, IFTA launched its first World Family Therapy Congress in Dublin, Ireland, 1989.

What is IFTA?

IFTA is the professional association for those interested in the field of marriage and family therapy throughout the world. As such, it is the only organization that provides unity for therapists from east to west, respecting traditional approaches and embracing the tradition of tomorrow.

Mission Statement

Adopted December 2005

The cornerstone of every society is the family. With the support of its members, the International Family Therapy Association (IFTA) provides international conferences to promote, strengthen and improve the quality of family therapy, the quality of relationships within families and to promote well being and peace within our world.

IFTA, working in a collaborative spirit with other professionals and organizations around the world who share its mission, also promotes continuing education for family therapy professionals in the development of international quality standards for marriage and family therapists in order that they may better assist families in the communities in which they serve.

Conference Code of Conduct

World Family Therapy Congresses are a unique meeting place for the world-wide family of family therapists. The Congress Board desires that the experience of this congress be one of the highlights of your year.

As we look forward to another exciting congress, we want to remind everyone that the World Family Therapy Congress is dedicated to providing a harassment-free experience for everyone, regardless of factors such as sex, gender, gender identity and expression, sexual orientation, ability, physical appearance, body size, race, ethnicity, nationality, culture, or religion.

Harassment may take a variety of forms and in a variety of environments, including in-person or online. Attendees asked to stop any harassing behavior are expected to comply immediately. If a participant engages in harassing behavior, the congress organizers may take any action they deem appropriate, from warning the offender to expulsion from the congress. If you are being harassed or notice that someone else is being harassed, please contact a member of conference staff immediately. Their names and pictures are listed in the Congress Program.

Congress staff will be happy to help participants contact hotel/venue security or local law enforcement, provide escorts, or otherwise assist those experiencing harassment to feel safe for the duration of the conference. We value you, your safety and your attendance.

We expect all conference participants to be professional, considerate, respectful and collaborative, Please silence mobile devices during presentations, do not interrupt others who are speaking, and avoid using shared wifi/bandwidth to download large files. **DO NOT RECORD ANY LIVE DEMONSTRATION THERAPY WORKSHOPS.**

We appreciate your help in making the World Family Therapy Congress among very best it can be.

Plenary Speakers

Zhao Xudong, M.D.

"The Development of Family Therapy in China: Its Impact on Therapy, Research and Education"

Dr Xudong Zhao, M.D., is Professor of Psychiatry and Psychology and Director of the Division of Medical Humanities at Tongji University School of Medicine in Shanghai, China. In addition to his duties at Tongji, he is President of the Mental Health Center of Pudong New Area, affiliated with Tongji University.

Dr. Zhao is also the Director of the Department of Psychosomatic Medicine at Shanghai East Hospital, affiliated with Tongji University.

Involved in many professional associations, Dr. Zhao is Vice-Chairman of the Chinese Association of Mental Health and President of its Section for Psychotherapy and Psychological Counseling. He is also Vice-president of the Psychosomatic Medicine Section of the Chinese Medical Association, Vice-president of the World Council of Psychotherapy, and Executive board member of the Urban Mental Health Section of the World Psychiatry Association.

Joyce Ma

"Family-centred practice for Chinese families of children with attention deficit hyperactivity disorder in a Chinese context"

Dr. Joyce Ma, Ph.D., a professor of marriage and family therapy in the Department of Social Work at the Chinese University of Hong Kong, Hong Kong, China, has a long-held interest in multiple family therapies. She recently published an article on multiple family therapy with Chinese families whose children had attention deficit hyperactive disorder. Her recent work was just published in Family Process.

A member of the IFTA Board of Directors since 2011 and now the President-Elect (2019-2021), she is also co-director of the Academy of Family Therapy (Hong Kong). Dr. Ma is a Clinical Fellow of Asian Academy of Family Therapy and a Clinical Fellow and Approved Supervisor of the American Association for Marriage and Family Therapy.

08:30-9:15 Workshops (45 min.) and Consecutive Brief Section (20 min.)

Cultural Encounters in Clinical Supervision: The Supervisory Dyad		Foyer Ballroom A
Karen Quek - USA	Culturally competent supervisory practices recognize the dominant discourses within a given society and their positive and negative effects. This workshop addresses three cultural components: supervision as a process for interacting with multiple cultural contexts; supervision manages multicultural conversations; supervision encourages examining of supervisors' and supervisees' own cultural background and biases	45 min
Using Sandtray in Supervision to Enhance Therapist Awareness		Ballroom B
Marshall Lyles - USA	This workshop will discuss the use of sandtray in supervision. After reviewing the supporting material from research and neuroscience, participants will see illustrations of implementing sandtray into supervisory goal setting, case conceptualization, and person-of-the-therapist exploration in individual and group formats.	45 min
Introducing Family Therapy and Systems Practice Education in Cambodia		Ballroom A
Bernhild Pfautsch - Cambodia Pot Channika - Cambodia	The presentation will share about the Cambodian experience of starting clinical training in Family Therapy and Systemic Practice at the Royal University of Phnom Penh and the journey to discover relevant cultural and contextual features of family therapy education in Cambodia. Financial and human resources for mental health and counseling services are scarce in Cambodia which calls for feasible forms of service delivery. We will report on our first steps to align Family Therapy and Systemic Practice education with the prevalent ecological system to equip future therapists with culturally and contextually fitting therapeutic skills and treatment tools.	20 min
The Narrative in the Service of Reconstruction of the Self: Marital Relationships		Ballroom A
Zeev Appel - Israel Arie Cohen - Israel	Workshops on couple of relations are conducted in several prisons in Israel. This study examines the meaning for the participants of the narratives that develop in these workshops, and discusses the influence of the conditions of the setting, and the messages delivered in the workshops.	20 min
The Case for Engaging Children in Family Therapy with their Substance Using Mother		Altitude
Natasha Slesnick - USA	Approximately 11% of U.S. children live with one or more substance abusing parents, but children are not often included in their parents' treatment plans. In this presentation, research findings underscoring the power of family systems therapy to improve outcomes for both mother and child will be offered.	20 min
Divorce Contract in the Safe – Upside Down Therapy		Altitude
Cheli Bolless - Isreal	Sometimes, a signed divorce agreement opens an opportunity to marriage reconstruction. Couples that had signed a divorce contract were forwarded to family therapy that was successful and the marriage was saved. I referred also cases of couple therapy that went nowhere to divorce lawyer and back to treatment.	20 min
09:30-10:15 Workshops (45 min.) and Consecutive Brief Section (20 min.)		
Conjoint Family Therapy – The Don D. Jackson and Virginia Satir Collaboration		Foyer Ballroom A
Wendel Ray - USA David Hale - USA	In 1961 Don Jackson & Virginia Satir asserted there is a relationship between the patient's symptom & family interaction, stating the extent a therapist "believes" in family therapy determines how this orientation is conveyed to the patient. This workshop will explore the profound meaning of Satir & Jackson's statement.	45 min
Reaching and helping clients with Same Sex Attraction in conservative-religious communities		Botan
Bryan Shen - Singapore	In conservative-religious communities, individuals who find themselves with homosexuality can be deeply hidden. Acquiescence to traditional marriages or entering religious institutions are common, not without consequences. This lecture describes a combined systemic and clinical approach to reaching and helping such clients among Christians in Thailand, Philippines, Malaysia and Singapore.	45 min
The personal professional: Reflections on the use of self in family therapy		Ballroom B
Jake Johnson - USA	In this presentation, information will be provided regarding how various schools of family therapy conceptualize the use of self in therapy. Strategies for effective use of self in therapeutic settings and important precursors to use of self in family therapy will also be discussed.	45 min
A Step Towards Better: Using Floor Marker Constellations in Family Therapy Supervision		State 1 - 2
Roger Lowe - Australia	Floor marker constellations are a creative experiential method for resolving supervision dilemmas. Rectangles of paper are positioned on the floor to represent important elements in a dilemma, and a combination of movements and sentences are used to illuminate dynamics and achieve resolution. Audience members will participate in a live demonstration	45 min
Single Parents Household Families, 20 years later		State 3
Ruth Casabianca - Argentina	Actual social position of Single Parents Household Families will be discussed, in relation to some variables that have been already evaluated 20 years ago. Current research shows that the social support to these families, and the social meaning given to them, are relevant to their functioning.	45 min

Theme Song for Change: Using Music to Enhance Resources	Michael Reiter - USA	This presentation demonstrates how family therapists can utilize clients' choices of a theme song as a way to enhance their personal resources. The presenter will explain the ideas of this technique as well as provide several case examples taken from work with individuals, couples, and families.	Ballroom A 20 min
When Systemic Theory Meets Institutions: Strategic Interventions in the Prison System	Theresa Dronet - USA	Findings on a systemic approach to mental health delivery in a maximum security prison. Due to poor access to mental health care, a prison was under litigation to restructure the delivery of services. A systemic therapist designed a strategic intervention that reduced violence by 80% in the unit.	Ballroom A 20 min
Experiences of graduate students enrolled in a social justice program and the 2016 United States presidential election	Seon Kim - USA	This qualitative study explored marriage and family therapy students in a social justice school experience with the 2016 presidential election. Study results revealed a sense of injustice regardless of participant's political stance, confirming literature underscoring issues of social dominance, subjugation, and associated fear and anxiety mechanisms.	Altitude 20 min
10:15-10:45	Recess/Coffee Break		
10:45-12:00	Welcome & Opening Plenary		
Family-centred practice for Chinese families of children with attention deficit hyperactivity disorder in a Chinese context	Joyce Ma, Ph.D. President-elect of IFTA	Dr. Joyce Ma, Ph.D., a professor of marriage and family therapy in the Department of Social Work at the Chinese University of Hong Kong, Hong Kong, China, has a long-held interest in multiple family therapies. She recently published an article on multiple family therapy with Chinese families whose children had attention deficit hyperactive disorder. Her recent work was just published in Family Process. A member of the IFTA Board of Directors since 2011 and now the President-Elect (2019-2021), she is also co-director of the Academy of Family Therapy (Hong Kong). Dr. Ma is a Clinical Fellow of Asian Academy of Family Therapy and a Clinical Fellow and Approved Supervisor of the American Association for Marriage and Family Therapy.	Ballroom A
12:00-13:30	Lunch Break		
13:30-14:15	Presentations/Workshops		
Evolution of Family Therapy in Thailand: Yesterday, Today and Tomorrow	Dr. John Lawless - USA Dr. Parichawan Chandarasiri - Thailand Dr. Palisara Thommachot - Thailand Dr. Yongyud Wongpiramsarn - Thailand Dr. Umaporn Trangkasombat - Thailand	Co-Moderators Dr. John Lawless and Dr. Parichawan Chandarasiri will lead a panel family therapists from Thailand discussing the Evolution of family therapy in their country.	Foyer Ballroom A 45 min
Filial Piety, a legacy of Confucianism has become problem to family therapy in modern China	Chung Ping Wong Ip - Hong Kong	Cultural differences between East and West may be confusing goals in family therapy. Filial Piety, a legacy of the Confucian tradition, highly regarded as a virtue in the traditional Chinese family, is suspected of reasons to depression, anxiety, and aggression.	Botan 45 min
Emotionally Focused Couples Therapy with a Borderline Personality Disorder Partner: A case study	Aida Jimenez - Puerto Rico	This presentation will discuss a couple treatment using Emotion Focused Couples Therapy when one of the partners has Borderline Personality Disorder. We will discuss the overall principles of EFCT applied to the case, and the techniques used to unfold key emotions and to prime new responses from the couple.	Ballroom B 45 min
Engaging parents in group sessions	Michelle Koay - Singapore	This presentation explores the benefits of engaging parents of adolescents in group sessions within a school setting. This is a prevention and education strategy to engage parents, where sessions provide a safe environment for parents to share their thoughts and feelings about their role as parents and their parenting skills.	State 3 45 min
Migration, technology and care: Changing family dynamics	Maria Marchetti-Mercer - South Africa	This presentation will focus on the experiences of a South African Deaf migrant and her family in order to explore ways in which technology may enable and promote care, but may also obscure embodied realities which are core to the human experience and to aspects of care within a family.	Ballroom A 20 min
Use of Family Camp in Multi-Family Group for Chinese Families of Adolescents with ADHD in Hong Kong	Wing Ka Lo - Hong Kong	This presentation aims to share the preliminary results and introduce the use of family camp in Multi-Family Group with Chinese families of adolescents with ADHD in Hong Kong. Discussion will be made on the use of natural environment in healing family relationship for Chinese families of adolescents with ADHD.	Ballroom A 20 min
Reflecting team: The possibility for change. The experience from RAMA Family Clinic (Thailand)	Suchawadee Pongthanawisuth - Thailand Nida Limsuwan - Thailand	Reflecting team approach is widely used in family therapy in Western countries; however, there are few empirical researches, especially in Eastern countries such as Thailand. The family clinic at Ramathibodi Hospital, Bangkok, has conducted a descriptive study to find whether reflecting team approach is compatible with the context in Thailand.	Altitude 20 min

Evaluating Systemic Functioning of Families with a Cancer Patient: Are we doing enough?		Altitude 20 min
Nicole Vélez Agosto - Puerto Rico	Although researchers have suggested the importance of family interventions when an individual has cancer, few studies have focused on the systemic functioning and narratives of the families- especially on minority groups. There main purpose is to discuss the implications of culturally adapting Bowen's concepts to Hispanic families with cancer patients.	
14:30-15:15	Workshops (45 min.) and Consecutive Brief Section (20 min.)	
Indian Perspectives on Facilitators and Barriers in Treating Substance Use Disorders		Foyer Ballroom A 45 min
Sebastian Perumbilly - USA	Despite great advances in addiction-treatment-research, only about eleven-percent of the patient population seeks treatment. Using a mixed-method research design, this Indian study focused on identifying key facilitators and major barriers in patients' treatment-seeking. Various strategies are discussed to promote treatment-seeking, and to remove barriers.	
The couple relationship and the romantic ideal in the 21st century: East meets West?		Botan 45 min
Angela Abela - Malta	The focus of the workshop will be on the current meanings of love, intimacy and sexuality between couples in East and West. Reference will be made to the different layers of meaning that couple therapists have to grapple with as they listen to couples about their most intimate relationships.	
MFT Supervision in Asia		Ballroom B 45 min
Young Ju Chun - Korea Takeshi Tamura - Japan Joyce Lai-Chong Ma - Hong Kong	The profession of Marital and Family Therapy (MFT) in some Asian regions has been rapidly growing during the last decade, and thus, the demand for the MFT supervision also has increased accordingly. This presentation focuses on specific issues of MFT supervision in Hong Kong, Korea, and Japan respectively.	
Practical, Legal, and Ethical Issues for Working Effectively with High Conflict Divorced Families		State 1 - 2 45 min
William Northey - USA	In the interactive workshop, participants will explore the challenges presented in intervening systemically with parents engaged in harmful and cantankerous post-divorce interactions. In addition to reviewing the various methods for assisting high conflict couples, participants will consider the role that systemic therapists can play in delivering these interventions.	
Attachment Based - Cognitive Behavioral Systemic Therapy (AB-CBST)		State 3 45 min
Keith Sutton - USA	Attachment Based - Cognitive Behavioral Systemic Therapy is an integrative model, integrating Family Systems, Cognitive Behavioral Therapy, Emotionally Focused Couples Therapy, and Eye Movement Desensitization Reprocessing. Through the attachment relationship of the therapeutic relationship, using a collaborative, post modern approach, the therapist treats systems, to create lasting change.	
Expanding access to rural team-based health care: A Colorado model		Ballroom A 20 min
Mike Olson - USA	Opportunities for MFTs in medicine continue to expand as healthcare reform moves toward prevention and team-based, multi-disciplinary care of patients. This presentation will review both state-wide and local projects (funded at the state and national level) that have focused on bringing mental/behavioral health together in the medical/primary care of patients.	
"He is my husband, Not a perpetrator"-A case study of intimate partner violence from the perspective of institutional ethnography		Ballroom A 20 min
Wan-Juo Cheng - Taiwan	This case aimed to explore the social relation organizing activities of the battered woman and her service providers and further explicate ruling relations through texts. The results provided alternative views of resistance, and explicated how institutional ideologies excluded actual needs of the woman and relational factors she considered important.	
15:15-15:45	Recess/Coffee Break	
15:30 - 18:00	Board of Directors	
15:45-16:30	Workshops (45 min.) and Consecutive Brief Section (20 min.)	
Interplay between systemic and art family therapy in an inpatient setting for adolescents		Foyer Ballroom A 45 min
Isabelle Feijo - Australia	This presentation demonstrates the interplay between weekly systemic family therapy and art family therapy in a Sydney (Australia) based psychiatric inpatient setting for treatment refractory adolescents.	
The application of meditation of the Satir Model in the Group Counseling and Therapy		Botan 45 min
Jane Huang - China <i>Presentation in Mandarin</i>	As what Ms. Virginia Satir said:" Meditation stimulates the use of the right brain. It is a way using our intuition to bring more possibilities and changes ." In this presentation, you can experience and have a glimpse at the use of it in group counseling and therapy.	
3 P.L.A.Y. to breakthrough for Families With Teenagers Who Learn Differently		Ballroom B 45 min
Mei Wah Long - Malaysia Li Li Koh - Malaysia	The 3 P.L.A.Y. to Breakthrough helps parents and caregivers revive natural family system through practical and flexible approach with the core base of educational kinesiology, reflexes integrations and language intention that nurture the best of their teenagers who learn differently.	
International Experience of Network Supervision of Pluridisciplinary Team in Case of Incest		State 1 - 2 45 min
Martine Nisse - France	We supervise pluri disciplinary teams from countries in rapid evolution to best understand issues of sexual abuse, to prepare change in the law and offer new model of treatment for incestuous families. We will share this deep experience showing universality of resistance to change and both hope to obtain change.	
High-conflict parents in mediation: An analysis of dialogues, sources to conflict and implications for practice		State 3 45 min
Odd Arne Tjersland - Norway	The presenter will describe international patterns and conflict-driving sources found in an observational study of 38 high-conflict parents in mediation. Furthermore, he will describe some of the mediation approaches that seemed most constructive in assisting theses couples in the direction of an agreement. Video illustration will be used.	

Clients' Perspectives on Therapy That Builds Family and Personal Harmony	Patricia Tan - Singapore	Our theory of family harmony explains how therapists helped disharmonious families find relational harmony without sacrificing personal harmony. Clients perceived that therapists who built family and personal harmony (1) were helpful professionals, (2) had expertise, (3) encouraged collaborative conversations, (4) were more involved than usual, and (5) were collaborative-experts.	Ballroom A 20 min
Investigating the influence of Family Factors on Infant Parenting Approaches during One Year Postpartum Period among United States Parents	Koh Yee Woen - Singapore	204 US parents were recruited to an online survey during one year postpartum. Family factors were important predictors of parenting approach at 1 year postpartum. In particular, low family communication and high work family conflict were found to be associated with discipline and anxiety parenting approach.	Ballroom A 20 min
16:45-17:30 Workshops (45 min.) and Consecutive Brief Section (20 min.)			
Use of Words, Metaphors and Silence	Nesteren Gazioglu - Turkey Ceyda Tahincioglu - Turkey	Words, metaphors and the use of silence are the main tools of a therapist. This workshop will invite the participants to explore silence, to practice the use of words and to create metaphors.	Foyer Ballroom A 45 min

	Cadmona Hall - USA	The purpose of this presentation is to highlight a specific teaching strategy that actively facilitates CFT students self-exploration as a critical component of grief education. Specific exercises will be discussed where CFT students understanding is filtered through the trainees life experiences and in relationship to the clients they serve.	45 min
Accreditation Process for Marriage and Family Therapy Training Programs			Botan
	William Hiebert - USA	Members of the International Accreditation Commission for Systemic Therapy Education (IACSTE) will provide information for programs desiring accreditation as well as answer questions from programs already accredited.	45 min
	John Lawless - USA		

Mental Health Screening in Coordinated and Integrated Primary Care: Lessons Learned		Ballroom B
Jessica Stephen Premo - USA Zephon Lister - USA	The USPSTF found that screening can improve the identification and treatment of mental health (MH) and substance use conditions in primary care. This workshop will discuss best practices for MH screening, how to assess and address barriers, and share lessons learned from research and implementation of primary care MH screening.	45 min
Engaging Teenagers in Family Therapy		State 1 - 2
Gun Kristina Drott Englen - Sweden	Building Alliance and Engaging Teenagers in Family Therapy. Engaging even the identified patient in family therapy is crucial to be able to make both the teenager and the parents be confident in family therapy. Focus will be on alliance building, illustrated with video clips from family therapy sessions.	45 min
Bridge Research and Public Mental Health Workforce Development		State 3
Linna Wang - USA	This workshop presents the research that identified the leadership and managerial training needs of managers who were trained as MFTs, as well as the effort to secure government grant to provide leadership and managerial skill training to fulfill the needs in the community.	45 min
The Household Production of Health: A Case Study of Mental Health Utilization in Cambodia		Ballroom A
Monysakada Phal - USA Denise Lewis - USA	When examining health-seeking behaviors of families in developing countries, we must view social and cultural factors as health determinants. This brief presentation uses the Household Production of Health (HHPH) framework to investigate how Cambodian families understand mental health problems and make decisions to seek treatments in the context of poverty.	20 min
Towards an indigenized external supervision approach in China		Ballroom A
Mo Yuen Han - Hong Kong	A study conducted in China to explore the characteristics of dual supervision approach. Themes were identified include: roles, education, reflection and integration, developmental orientation, context and barriers. Four areas namely educational, developmental, reflective and contextual that are essential for supervising Chinese social workers.	20 min
MFT Education Online: Effective Strategies to Enhance Student Learning		Altitude
Yulia Watters - USA William Northey - USA	The session will focus on innovative adaptive technologies, advancements in delivery methods, and the use of interactive video to enhance student learning in online or hybrid family therapy training programs. Participants will join groups lead by thought leaders to consider these contemporary educational opportunities.	20 min
Parenting Stress in Families of Children with and without ADHD in China, Xi'an		Altitude
Si Yang - Hong Kong	Parenting stress may impede the function of parenting. In families of children with ADHD, parents were in a high level of parenting stress. Factors impacting parenting stress were analyzed from four domains: child, parent, interpersonal, and environmental. Findings were also compared with families of typically-developed children in China, Xi'an.	20 min
10:15-10:45	Recess/Coffee Break	
10:45-11:30	Workshops (45 min.) and Consecutive Brief Section (20 min.)	
Family Therapy with Young Adults with Serious Mental Illness: The Ackerman Relational Approach		Foyer Ballroom A
Mary Brewster - USA Lois Braverman - USA	The onset of a serious mental illness in a family member is a crisis for the entire family. This presentation uses videotapes to demonstrate how therapists using the Ackerman Relational Approach help family members develop skills to reduce symptom relapse by decreasing emotional reactivity and by promoting healthier behavioral functioning.	45 min
Virginia Satir & the First Family Therapy Training Program—Honoring Satir's 100th Birthday		Botan
Wendel Ray - USA David Hale - USA	When psychiatrist Don Jackson founded The Mental Research Institute (MRI), he invited Virginia Satir to be Director of the Family Therapy Training Program. Drawing from 123 surviving audio recordings of family therapy interviews, teaching seminars, lectures, print documents and photos, Satir's pioneering teaching of Conjoint Family Therapy will be presented.	45 min
Is it possible to work with the whole family when Family Violence has been identified?		Ballroom B
Margaret Hodge - Australia	The "Keeping Safe Together" demonstration project being implemented in Melbourne, Australia is an intensive whole of family approach addressing the needs of victims, survivors and men who are using violence. This whole of family intensive case management model is framed around a trauma informed lens using a strength based approach.	45 min
Resolving PTSD, Sexual Trauma and Child Abuse		State 1 - 2

This presentation provides a brief overview historically of child abuse, sexual trauma, and PTSD, and will introduce a therapeutic technique that incorporates cognitive hypnosis and the therapeutic skill of joining; more widely known as Rapid Resolution Therapy.	45 min
Use of family therapy in alcohol and drug addiction center using integrative care model		State 3
Seon Kim - USA	The purpose of this presentation is to explore the current trend in the utility of family work in addiction treatment. Outcomes data collected from one of the nationally acclaimed alcohols and drug addiction center will be utilized to illustrate and discuss the usefulness.	45 min
Use of Systems Theory in Business and Organizations		Ballroom A
Ariane Ladd - USA	Systems theory that has wisely guided work with families is also powerful in enhancing organizational functioning. Relevant businesses are utilized to show how systemic concepts operate and influence productivity. Marriage and family therapists can broaden their influence by applying principles to assist organizations in achieving their goals and objectives.	20 min

Clinical Outcomes and Medical Compliance of Children with Attention Deficit/Hyperactive Disorder and Parents' Life Congruence after Attending A Psychoeducational Program based on the Satir Model		Ballroom A
Soontaree Srikosai - Thailand	Parents who have a child with ADHD have no peace of mind which is related to clinical problems of children. The psychoeducation approach needs to improve knowledge and understanding of child care, including helping parents to positive internal change.	20 min
Assessing and Treating the Family System: Perinatal Mood and Anxiety Disorders		Altitude
Jamie Banker - USA	Current perinatal illness assessment tools tend to focus on symptoms and do not always include the systemic and family context in which symptoms present. This presentation illustrates the use of the perinatal genogram in providing a broader systemic assessment and destigmatizing treatment for the family. A clinical example is provided.	20 min
Sit-in the session: the evolving journey of learning family therapy as a co-therapist		Altitude
Lili Xia - Hong Kong	Co-therapy has been a common practice in family therapy as a treatment modality and a training strategy. It's evidenced as a relatively safe and gradual process of the therapist' becoming a competent solo therapist. This study reveals the co-therapist's evolving role as his/her involvement and experiences increase throughout the process.	20 min
Lai-chong Ma - Hong Kong		
11:45-13:00	Lunch Break	
12:30-13:30	Poster Session	
Analysis of answers in semi-structured projective questionnaire and relationship between social functioning by Text Mining		
Shuichi Watanabe - Japan	We analyzed the answers concerning the family and its relationship in semi-structured projective questionnaire in patients visited our psychiatry department to clarify the relationship between the usage of words and social functioning by Text Mining. The family relationship was the key of social functioning for patients with mental problems.	
Maternal Acceptance and Child Outcomes among Mothers Reporting Intimate Partner Violence		
Laura Cully - USA	Substance-using mothers reporting intimate partner violence (IPV) and their children are an understudied population. In this cross-sectional study, women who experienced IPV reported lower maternal acceptance and higher child problem behaviors than mothers with no IPV history. This relationship was further influenced by frequency of maternal substance use.	
Family Functioning, Health Representations and Quality of Life in Type 1 Diabetes Adolescents		
M.Graça Pereira - Portugal	This study addresses how dissimilarity in health representations regarding type 1 diabetes between parents and adolescents and school support impact the relationship between family functioning and quality of life. The moderated moderations showed the dissimilarity regarding consequences and identity of diabetes were significant. Implication for family therapy are addressed.	
Relation between parent sociality and employment in patients with Intellectual Disability		
Nobuyuki Takeuchi - Japan	We investigate relation between employment and parents' sociality (SOFAS). We adopted 17 patients who could be confirmed working state and parents' SOFAS and under 70 full scale IQ. Our results showed that parents' sociality is a one of fact to employment of patients with Intellectual Disability.	
Community-Based Lay Counseling Interventions for Couples in Beijing		
Christine Lau - Hong Kong	A couple relationship needs assessment was conducted in China, and the highest rated topics were reported. A study was also conducted of the efficacy of the participants in a couple counseling training program. Results showed that their hope in helping couples increased after the training.	
Process of Therapeutic Change among the Unmarried Mothers in Korea-A Grounded Theory Approach-		
Gyeong-Ran HWANG - Korea	The purpose of this study is to explore the process of therapeutic changes in family relationship of unmarried mothers who experienced family therapy and provide the basic counseling data to improve their family relationship, utilizing the grounded theory.	
Song Jeong-Suk - Korea		
Deok-Kyung BAE - Korea		
Young-Ju Chun - Korea		
Japanese programs for autistic adults and their families: Learning to be an independent and unique adult		
Chiemi Chiba - Japan	Autism spectrum adults often have difficulty transitioning from school or university settings to the workplace, I will discuss activities in two Japanese programs for ADHD adults and their families that focus on training in social activities and self-awareness.	
Treating moral injury in military-service-professionals: An ethnographic study		
Sebastian Perumbilly - USA	Using an ethnographic research design, this study explored how moral injury (MI) in military-service-professionals can be treated by using the Soldier's Heart Transformational Model (Tick, 2014) within the context of a psycho-spiritual-retreat in Vietnam in December 2016.	

Core-components of parental-growth from the perspectives of Indian and U.S. parents

Sebastian Perumbilly - USA

Parenting literature often ignores key aspects of parents' personal growth and its clinical implications. Using a mixed-methods research design, this study focuses on the perspectives of Indian and U.S. parents, and systematically examines key components of parental-growth and discusses clinical implications for couple and family therapists.

The Spiritual and Religious Strengths of African American Couples: An SFT Approach

Leslie Anderson - USA

Marriage and family therapists influenced by the Solution-Focused model of therapy can use this strengths-based approach to build on the spirituality and/or religiosity of some African-American couples in therapy. This poster presentation emphasizes this cultural aspect as a strength and provides practical guidelines to addressing spirituality/religiosity in therapy.

The impact of parenting on child mental health among children of prostituting mothers

Aaron Murnan - USA

Ample evidence suggests that children's mental health is strongly related to their mother's parenting. In this study, children of prostituting mothers experienced less parental monitoring and worse mental health functioning compared to other children. Furthermore, promotion of children's psychological autonomy by mothers was related to higher child mental health functioning.

Sexual dysfunction among young adults seeking help at a psychological center in Russia

Natalia Kravtsova - Russian Federation

Natalia Bolotina - Russian Federation

Tatiana Glebova - United States

This poster presents findings and clinical implications of the study investigated a degree and types of sexual dysfunction in a clinical sample of 28 young adults (15 women and 13 men) seeking professional help at a psychological center in Russia.

Positive Family Features for Fostering Youth Development in Cambodia

Sovandara Kao - Cambodia

Sorita Ann - Cambodia

The Department of Psychology at Royal University of Phnom Penh conducted a survey with 1591 high school students from rural and urban areas investigating the influence of the family on development of youth considering the Positive Youth Development Framework, particularly family external assets as features of family coexistence.

ICT- Intensive Contextual treatment

Jenny Apoy Söderdahl - Sweden

Timo Seifert Hougaard - Sweden

Eva Höglund - Sweden

The more problems a family shows, the more interventions they get from society for instance school, social service, health care and others. The ICT-team on the Island of Gotland/Sweden is a living example of a contextual family therapy which helps the adolescent, the family and the families context.

Perception of Connection: Building Attachments Through the Lens of Technology

Ashley Roth - USA

As children grow and seek autonomy, away from their secure base, are attachments in the technological age created the same way? Or have new technology-based interactions created a false sense of connectedness? Attachment theory is utilized to examine the growing concern of text type interactions in youth and their families.

13:30-14:15 Workshops (45 min.) and Consecutive Brief Section (20 min.)

Becoming More Fully Human: Peace Within, Peace Between and Peace Among

Anna Marie Low - Singapore

At one of her workshops toward the end of her career, Virginia Satir (1916-1988) said, "I'm working now for something called - Becoming More Fully Human –so that we can bring together all of this information and make it a part of ourselves. I think peace in the world has to do with peace in the human being. My peace work is Peace Within – meaning harmony. Peace Between – meaning congruence. And Peace Among – meaning that everyone out there can be valued." In this presentation I will share my picture of, "bring together all of this information", that Virginia Satir referred to, plus suggestions for how we can "make it a part of ourselves", and for what? Hopefully, for world peace. Anna Low is the founding President of the Satir Centre (Singapore). She has served as a Board Member of the International Family Therapy Association (IFTA) and is its current Recording Secretary. Anna is a Clinical Member of the Satir Institute of the Pacific and was a recipient of the Satir TST Leadership award in 2011 for her leadership and contribution to the development of the Satir Model in Singapore. Anna obtained her Degree in Accountancy from the National University of Singapore and Masters degree in Counselling from the University of South Australia. She has also received extensive training in the Satir Model as a therapist, clinical supervisor and trainer. Anna is a Master Clinical Member and Approved Clinical Supervisor with the Singapore Association for Counselling and is also a Registered Social Service Professional in Singapore.

Content analysis of couple therapy research in Greater China: critical review and forward		Botan 45 min
Tak-Mau Chan - Hong Kong Forward Fung Chin - Hong Kong Matthew Chi-ming Ho - Hong Kong Victor Chi-yuen Lau - Hong Kong	278 referred journal articles were identified as the research of couple therapy in Greater China, and the authorship, practice area, target of practice and research method were the key analysis in this study. Critical comments and discussion on the development of the region, gender and article types were discussed.	
The Impacts of Technology on Adolescence		State 1 - 2 45 min
Nesteren Gazioglu - Turkey	Use of technology is sometimes pointed out as a problem in family session. Especially the families with adolescents point out technology as a scape goat. Throughout this workshop the systemic effects of technology (esp. internet and social media) will be examined and a family sculpt will be demonstrated.	
A new projective questionnaire assessing family differentiation through drawn circles		Ballroom A 20 min
Ora Peleg - Israel	This study validates a new inventory of satisfaction with family differentiation through drawn circles (SFI-R). Examination of the psychometric properties of the instrument indicated that it was reliable and valid. In addition, SFI-R was positively associated with other family inventories, and negatively associated with trait anxiety.	
Developing Cultural Competencies in Clinical Training		Ballroom A 20 min
Ayse Ciftci - USA	In this presentation, I will focus on: 1) brief summary of cultural competency movement in education and training in the US, 2) diverse conceptualization of multiculturalism outside of the US, 3) critical need to have a culturally-relevant model to train culturally competent therapists.	
Therapist Expectations: Burnout and Supervision		Altitude 20 min
Antionette Edmonds - USA	This presentation will also discuss the importance of receiving supervision and feedback weekly to prevent burnout. According to Kanz (2001), mental health professionals who are not adequately supervised tend to have lower personal job satisfaction (p. 198.)	
Theoretical Applications to Parent-child Acculturation Gaps in War-Affected Families		Altitude 20 min
Lekie Dwanyen - USA	Acculturation gaps are common in immigrant and refugee families, and have the potential to impact conflict and cohesion in parent-child dyads (Birman, 2006). This presentation will discuss applications of family development and symbolic interactionism theories to understand parent-child acculturation gaps, as well as clinical implications of utilizing these theoretical frameworks.	
14:30-15:15 Workshops (45 min.) and Consecutive Brief Section (20 min.)		
Editors and Publishers Meeting, International Journals of Relationships, Family Therapy and Family Psychology		Foyer Ballroom A 45 min
Christian Jordal - USA	In this meetings, editors of relationship, family therapy and family psychology journals will discuss individual and global issues related to journal publication, including but not limited to market, management and current publication trends. Former editors and journal publishers are also welcome.	
The Family Therapy Through the Lens of Different Therapeutic Modalities		Botan 45 min
Dr. John Lawless - USA Dr. Parichawan Chandarasiri (Ann) - Thailand Dr. Sirirat Ularntinon - Thailand Dr. Assawin Narkpongphun - Thailand Dr. Nawanant Piyavhatkul - Thailand	Co-Moderators Dr. John Lawless and Dr. Parichawan Chandarasiri will lead family therapists from Thailand discussing family therapy through the lenses of different therapeutic modalities.	
How to Work with the Professional Genogram with students and in Therapy		State 1 - 2 45 min
Umberta Telfener - Italy Nevena Calovska - Serbia	Time and space constitute cornerstones of psychological wellbeing, representing two important coordinates of human condition. How to utilize in the professional genogram will be offered in engaging participants in reflecting upon its implementation in their lives and in working systemically with students and in therapy.	
Working with Cambodian-Americans and Transgenerational Trauma: A Narrative Approach		State 3 45 min
Korlany Roche - USA	Utilizing a narrative therapy approach, this presentation will focus on specific interventions, techniques, and clinical considerations when working with second- and third-generation Cambodian-Americans and transgenerational trauma. Due to the lack of research within this population, further exploration is required to provide clinicians with foundational knowledge for treatment.	
Influence of Grandparenting to Family System in China		Ballroom A 20 min
Yaorui Hu - China	In modern Chinese family, the phenomenon of grandparenting become more and more common. Grandparenting can release parents pressure, but also makes the family more prone to the interpersonal conflicts and grandparents generations' over-involved to the nuclear family. My presentation will discuss this special phenomenon in differentiation and intergeneration transmission perspectives.	
Contemporary Single Young Women in the Chinese Context: Family Lifecycle Implications		Ballroom A 20 min
Jing Gai - China	This presentation will explore the lives of single young adult women living alone in the contemporary mainland Chinese context, through the lenses of the family lifecycle and Bowen Systems Theory.	

Working with Latina/o Families in the Current Political Climate		Altitude
Daniel Cooper - USA	The present study interviewed 13 Latina/o mental health scholars implementing evidence-based interventions within their communities. Results highlighted challenges to working with Latina/o families in the current socio-political context. Recommendations for implementing evidence-based mental health interventions with immigrant families facing discrimination are discussed.	20 min

An Evaluation of the Development of MFT Competencies and the Influence of the Supervisory Relationship		Foyer Ballroom A
Jay Burke - USA	Practicum is an essential part of MFT training in developing core clinical competencies. This study examined core competency evaluation data from practicum supervisors of 224 MFT students. Additionally, student evaluations of supervisors were reviewed to determine the impact of the supervisory relationship on the development of MFT clinical competencies.	45 min
Dissociative Identity Disorder (DID) from a Systemic Perspective. A Clinical Case		Botan
Larissa Ernst - Belgium	This presentation provides a synopsis of the conceptualisation of DID from a systemic perspective, the Integrative Interactional Approach specifically. This case shows the profound work that emerged through applying family therapy principles to individual psychotherapy.	45 min
Sian Green - South Africa		
Navigating Societal Marginalisation in Therapy: An exploration of the Journey of Unaccompanied Refugee Young People and their Therapist		State 1 - 2
Máire Stedman - United Kingdom	Is it possible to construct narratives across cultures? Significance of trusting therapeutic relationship. Cultural & spiritual influences facilitating or hinder coping. What are models of engagement that most facilitate therapeutic change & where do concepts such as PTSD spirituality and cultural-bereavement fit in the context of collaborative-self-empowering practice?	45 min
What's in the Dance? The Art of Integrative Interactional Couple Therapy		State 3
Warwick Phipps - South Africa	Couple Therapy is challenging, involving intense conflict, emotions, and power struggles. Drawing on the integrative interactional approach, the therapist identifies ineffective, hurtful, and destructive patterns of interaction: the couple's interactional "dance." The art of Integrative Interactional Couple Therapy is to help facilitate a more effective, constructive, and helpful interactional dance.	45 min
The Influence of Family Cohesion and Communication During Pregnancy on Postpartum Work Family Conflict among American New Parents		Ballroom A
Gwyneth-Ann Kim Choo - Singapore	This study aimed to investigate factors such as family cohesion, communication and social support during pregnancy on postpartum work family conflict among a U.S sample of new parents. Regression analyses indicated female gender and less children in the family were the more robust predictors of work family conflict at postpartum.	20 min
Navigating the Emic or "Insider" Self: Lessons from Exploring War Trauma and Resettlement		Ballroom A
Lekie Dwanyen - USA	Navigating emic perspectives is salient when engaging in research or clinical practice with families in culturally specific contexts, particularly as a community "insider." This presentation will highlight strategies to attend to "the emic", while drawing on the presenter's experience conducting research as an insider to Liberian-specific war and resettlement experiences.	20 min
Military Couples' Marital Experiences When One Member Has A Diagnosis of Bipolar Disorder		Altitude
Brenda McGregor - USA	This presentation is to report 5 major themes found in a transcendental phenomenology study explored the lived experiences of 5 military couples in which one spouse had a diagnosis of bipolar disorder and one spouse had military experience with at least one combat deployment, and their clinical implication.	20 min
Linna Wang - USA		
Solution Focused Sex Therapy: Working with Couples who Experience Non-Chronic Sexual Difficulties		Altitude
Jung Wonbin - USA	This presentation will discuss a solution-focused approach to sex therapy when working with couples who experience non-chronic sexual difficulties.	20 min
16:15-16:45	Recess/Coffee Break	
16:45-17:30	Workshops (45 min.) and Consecutive Brief Section (20 min.)	
Preparing and Transitioning to In-home Therapy for Marriage and Family Therapists		Foyer Ballroom A
Leyna Vo - USA	The MFT literature documents the need to provide in-home service to address therapy barriers for minority populations. However, MFTs experience transitioning to in-home therapy is overlooked. Understanding this adjustment will prepare MFTs providing in-home therapy. Suggestions for supporting MFTs' transition to in-home therapy will be provided.	45 min
Liang-Ying Chou - USA		
Application of Family therapy in mental hospital of Hong Kong, are there any conflicts with treatment culture?		Botan
Kwok Hung Siu - Hong Kong	Family therapy is promoted in a mental hospital of Hong Kong for many years. Increased professions accepted this treatment model. Problems and difficulties were encountered during application and training. My experience and feedback from service users will be shared. Strategies to overcome those difficulties will be suggested.	45 min

Filial Piety, a legacy of the Confucian tradition is a problem in family therapy in Asian families		State 3
Wong Ip Chung Ping - Hong Kong <i>Presentation in Mandarin</i>	Cultural differences between East and West may be confusing goals in family therapy. Filial Piety, a legacy of the Confucian tradition, highly regarded as a virtue in the traditional Chinese family, is suspected of reasons to depression, anxiety, and aggression.	45 min
Meta-Analysis of Risk Markers for Elder Abuse		Ballroom A
Zephon Lister - USA	This is the first meta-analysis to examine mental health risk markers for elder abuse. Results revealed that Depression, Alcohol use, Anxiety, Loneliness, Stress, and Mental/ Psychological health were moderately associated (r 's = .19-.33) with elder victimization. These results will inform clinicians/agencies who serve and protect potential victims of elder abuse.	20 min
Factors that affect MFT supervision outcomes of racially diverse supervisees in the U.S.		Ballroom A
Narumi Taniguchi - Canada	This presentation discusses what factors affect supervision outcomes for MFT supervisees of color and white supervisees. Results indicate that overall supervision outcomes are better when supervisors demonstrate multicultural competency. Examining the factors affecting improvement of clinical skills and multicultural skills separately, we found differences between the two groups of supervisees.	20 min
LGBT Identification & Relationship Quality in a Study of Family-Supported PTSD Treatment for Veterans		Altitude
Kimberly Stewart - USA	This presentation will disseminate the results of an analysis on LGBT Veterans' family and supportive others. The larger study (Project HomeFront) focused on the impact of family support in Veterans' adherence to PTSD treatment. Implications for family therapy practice and research will be discussed.	20 min
17:45-18:30 Workshops (45 min.) and Consecutive Brief Section (20 min.)		
Snap Parenting: Teenagers in the Age of Social Media		Foyer Ballroom A
Dr. Adrienne D. White - USA Dr. Karen Rowland - USA	In a world of snapchat and Instagram: parents today have to be more mindful than before of what their teens are being exposed to from the comforts of their own home. This presentation delves into the influences of social media on the modern family's systemic development and innovative parenting techniques.	45 min
Outcomes Research for TOGETHER: A Couples' Model to Enhance Relationships and Economic Stability		Botan
Mariana Falconier - USA	Reported are preliminary outcomes from TOGETHER, a model to enhance couple relationships and economic stability among low-income families. A randomized control trial assessed TOGETHER's effectiveness on relationship functioning and economic stability. Significant relationship outcomes were found for women, but not men; nor were significant economic stability outcomes found.	45 min
Training and Supervision of Beginner Couple Therapists: Guidelines from NIMHANS, Bengaluru, India		State 3
Anisha Shah - India	Beginner couple therapists' conceptual skills can develop very rapidly in any clinical training program but their behavioral skills for conducting conjoint sessions often stray away from conceptual anchor in theories. Guidelines discovered over 25 years of training and supervision of beginner couple therapists will be shared in this program.	45 min
Therapeutic Changes of Multi-Family Group perceived by Chinese Families of Child with ADHD		Ballroom A
Wing Ka Lo - Hong Kong	This qualitative study revealed the perceived changes in Chinese families of children with ADHD after attending MFG in Hong Kong. Findings suggested that MFG is helpful in improving parent-child relationships, and the therapeutic group context co-created by MFG leaders and families played an important role in initiating changes.	20 min
Human Trafficking: An International Hidden Epidemic		Ballroom A
Kris Hull-Houghton - USA Jacqueline Tome - USA	In this short presentation, you will learn signs and symptoms to identify human trafficking internationally and clinical interventions to use with survivors. You will also receive referral information on resources in helping individuals who have been trafficked.	20 min

Saturday March 10, 2018

08:00 - 14:00 Registration Hours		
08:30-9:15 Workshops (45 min.) and Consecutive Brief Section (20 min.)		
Evaluation of a "Parent as Consultant" Model in the Design of Family Resilience Workshops		Foyer Ballroom A
Kenneth Miller - USA Susan Miller - USA	Presenters will report results of a study in which parents of children diagnosed with low-incidence disabilities were invited to a university-based "Parent Roundtable" to evaluate and inform the design of a planned workshop to promote resilience in families with a child diagnosed with a low-incidence disability.	45 min
Don Jackson's Technique for Hearing, Seeing & Changing Family Interaction		Botan
Wendel Ray - USA David Hale - USA	Psychiatrist Don Jackson's clinical skill was legendary. This workshop will reveal Jackson's technique for "hearing" & "seeing" beyond content, and instead apprehend what transpires at the level of process. Specific skills will be taught for how see and change patterns in here and now interaction in the present moment.	45 min

Addressing moral injury in military service members through family therapy	Sebastian Perumbilly - USA	Military service members are often irreversibly changed by combat zone experiences. As clinicians, how do we best understand and treat all of war's invisible wounds to a soldier's heart, family relationships, and community? This workshop will present a holistic and comprehensive view for healing the wounds of war.	Ballroom B 45 min
“Challenging Racism in Family Therapy: Training Students to work Effectively with African American Families”	Cadmona Hall - USA	Training culturally informed healers is key to providing the ethical and responsible family therapy African American clients deserve. This presentation provides tools for addressing racism in the lives of African American clients. Socially just therapeutic strategies that liberate rather than constrain and oppress clients will be presented.	State 1 - 2 45 min
East Meets West: The Practice of Contextual Therapy with Theravada Buddhist Families	Andrea Rodrigo - USA Tatiana Glebova - USA	This presentation will discuss the similarities and differences between Buddhism and the contextual therapy theory. The presenters, a practicing Buddhist and a contextual therapist, will deliberate on the application of contextual therapy methods to therapeutic work with Theravada Buddhist families.	State 3 45 min
Effectiveness of an Alcohol Relapse Prevention Program Based on the Satir Model in Alcohol-dependent Women	Soontaree Srikosai - Thailand	Currently existing alcohol relapse prevention programs do not specifically address factors of alcohol relapse in women that may lead to rapid relapse and more frequent re-admission. This study examines the effectiveness of an alcohol relapse prevention program based on the Satir Model.	Ballroom A 20 min
The influence of religious practices on relationship functioning: Clinical implications	Zephon Lister - USA Jessica Stephen Premo - USA	This study examines the relationship between prayer, personal devotion and family worship and marital functioning in the areas of relationship satisfaction, emotional attunement, conflict resolution, and beliefs about roles in the relationship. Implications for clinical assessment and use of couples' religious practices for clinical intervention will be discussed.	Ballroom A 20 min

Youth and Adult Drawings of Mental Health Stigma in Multiethnic Communities		State 1 - 2
Ana Jimenez-Hami - USA	The Arts is a creative and powerful way to reduce mental health stigma. We present the drawings of 200 youth and adults from multi-ethnic communities. Preliminary data will discuss the various themes collected from the drawings, and a comparative analysis of youth, adults and the various communities.	45 min
The family that prays together, stays together: The role of prayer on child rearing practices		State 3
Jessica Stephen Premo - USA Zephon v - USA	This study examines the relationship between prayer and parental child-rearing practices among families living in the Caribbean. Implications for clinical assessment and use of family religious' practices for clinical intervention will be discussed.	45 min
11:45 - 13:00	Lunch Break	
13:00 - 13:45	Workshops (45 min.) and Consecutive Brief Section (20 min.)	
Couples, Pre-Marital Counseling, and Exercise?		Foyer Ballroom A
Ben-Gassendi St. Juste - USA	For a long time now research has shown a positive correlation between exercise and mental health. Since, exercise/fitness has been incorporated, in many ways, into various aspects of life in creative ways. This interactive workshop will give an overview about how exercise is being used in pre-marital counseling.	45 min
The last dance: The impact of Transvaginal mesh implants for women and their partners		Botan
Deisy Amorin-Woods - Australia	Exploring systemic work with women with mesh implants following the far-reaching effects on them and their relationships. Given its growing incidence there is need to explore the multilayered effects of this practice in order to increase understanding as well as to develop approaches in working sensitively with this group.	45 min
Evolving Structural-Strategic Family Therapy		State 1-2
Keith Sutton - USA	ESSFT is a four stage approach, which creates a clear way of working with families and integrating a number of approaches, such as Structural, Strategic, Behavioral, and Attachment Based family therapy models. Stage 1 is Assessment, Stage 2 is Preparation, Stage 3 – Structure, and Stage 4 - Attachment.	45 min
A two-factor model for teaching couple therapy integration		Ballroom B
Jac Brown - Australia	Recent developments in an integrative framework for teaching couple therapy within a two-factor model that encompasses the four dimensions of love, intimacy, sex, and power; within the iceberg framework which identifies depths of analysis including behavior, feelings, meaning, beliefs, affect, and self. Examples will be provided.	45 min
14:00 - 15:00	Closing Plenary	
Family Therapy in the "Majority world" Creating and Adapting Models to Fit Non-Western Contexts		Ballroom A
John K. Miller, Ph. D. - USA	Most models of family therapy were developed in the West, where only 15% of the world's population resides. This presentation will explore, with case examples, the utility of adapting Western family therapy for "majority world" contexts where over 85% of the Earth's population reside. John Miller is a Professor at Fudan University in Shanghai, as well as an adjunct Professor at the Royal University of Phnom Penh in Cambodia. He is a past Fulbright Senior Research Scholar to China (2009-2010) and the founder of the Sino-American Family Therapy Institute (SAFTI). He has recently published several articles and a book chapter on subjects related to the presentation.	
15:00 - 16:00	Closing Reception - Coffee Break	
16:00	Congress Ends	

Benefits of Membership

Journal of Family Psychotherapy

As a member of IFTA you will receive a subscription to the Journal of Family Psychotherapy. This is the official journal of IFTA and is sent to you electronically as part of your membership fee and is available online..

International Connection

The online International Connection newsletter provides you with updates about the organization and additional articles written by members worldwide.

Family Therapy E-News

A Members Only Research E-News Forum is sent quarterly highlighting research in marriage and family therapy.

World Family Therapy Congresses

A special World Congress discounted registration fee is available every year for members attending the annual World Family Therapy Congress. Networking is one of the highlights of an IFTA Congress; many 2014 Congress attendees said, 'the best networking congress ever!'

IFTA Membership Directory

An IFTA Member Directory is available to members only by request.

IFTA and IFTA Congress Web Sites

IFTA maintains a web site that contains information on upcoming World Family Therapy Congresses, Association information, news, and occasional articles.

Types of Membership

Individual Membership

This membership is for the professional mental health practitioner. Whether you are in a private practice, work for an agency, or would just like to learn more about family therapy from an international perspective. Memberships are available for one, 3 or 5-years with a discount for multiple year memberships.

Student Membership

Student members are currently enrolled in programs leading to a graduate degree or post-graduate certificate in marriage and family therapy or a related mental health field.

Institutional Membership

An institutional membership allows family therapy clinics or hospitals or academic departments to become a member of IFTA. This membership allows up to 3 professionals to be included in the Institution at a discount.

Lifetime Membership

This one time fee of \$1000 provides membership benefits as long as the member desires.

Becoming a Member

You may become a member of IFTA by credit card through the IFTA web site application: <https://www.ifta-familytherapy.com/application/> You may also contact the Secretariat for a fax application form

IFTA Board of Directors, July 1, 2017 – June 30, 2018

IFTA is the professional association for those interested in the field of marriage and family therapy throughout the world. As such, it is the only organization that provides unity for therapists from east to west, respecting traditional approaches and embracing the tradition of tomorrow.

New Editor, Journal of Family Psychotherapy

The International Family Therapy Association (IFTA) announces that Christian Jordal, Ph.D., from Drexel University, Philadelphia, Pennsylvania, USA, is the new editor. Dr. Jordal is the Director of the Master's Degree program in marriage and family therapy.

The Journal is a unique, peer-reviewed journal designed for practicing clinicians as well as academics that offers empirical studies, treatment reports, theoretical discussion, and strategies in clinical practice from family psychotherapy scholars from around the world. The Journal offers empirical studies, program reports, strategies in clinical practice, and theoretical discussions and essays. Additional specialty sections include Family Therapy Around the World, Intervention Interchange, Family Therapy and Mental Health, and Media Reviews. The Journal also regularly publishes special issues on various topics guest-edited by experts in diverse areas of family psychotherapy. The Journal is editorially and administratively managed by IFTA, and published by Taylor & Francis.

A free subscription to the Journal is part of membership in IFTA. For more information, contact the IFTA General Secretary: wjhiebert@aol.com.

2018 Annual Meeting & Open Conference

Relational Activism: Supporting Just Relationships in Family Therapy

June 21 – 24, 2018

AT&T Executive Education & Conference Center

Austin, Texas

OPEN TO ALL -- CE CREDITS WILL BE OFFERED

Why AFTA?

"The conference is structured for dialogue and intimacy, something you cannot find at other conferences. AFTA feels like home."

The 40th Annual Meeting and Open Conference will invite reflection on what activism in family therapy means and provide the opportunity to explore this concept from new perspectives. How we advocate for, support and sustain relationships in the contemporary era will be the central theme woven throughout the meeting. It is our hope that attendees leave the meeting inspired by the possibilities that new versions and visions of activism might bring to their lives, both professional and personal.

Join us at the 2018 AFTA conference to advance an innovative and creative family therapy for today and tomorrow.

Keynote Speaker:

- AnaLouise Keating, Ph.D.

Plenary Speakers include:

- Ruben Parra-Cardona, PhD
- Jean Malpas, LMHC, LMFT
- Kumeelah Mu'Min Rashad, M.Ed., MRP
- marcela Polanco

For more information, go to our website, <http://www.afta.org/conferences> or contact the AFTA Office at (910) 378-4601 or afta@afta.org.

International Accreditation Commission for Systematic Therapy Education

Created as a semi-autonomous body under the auspices of the International Family Therapy Association (IFTA), the International Accreditation Commission for Systemic Therapy Education (IACSTE) focuses on the development and implementation of quality standards for programs around the world that provide systemic therapy education and training. These standards are created to enhance the development of professionals who will be qualified to provide systemic therapy for individuals, couples, and families in the communities in which they live and work. Both Tier 1 (Primary) and Tier 2 (Advanced) sets of standards were created to enhance the development of professionals who will be qualified to provide systemic therapy for individuals, couples, and families in the communities in which they live and work.

More information about accreditation can be obtained at the Workshop, Friday, March 9 from 9:30 a.m.–10:15 a.m.

The Standards and Application for accreditation are available at: <http://www.ifta-familytherapy.org/MFTaccreditation.html>

Congress Loyalty Discount Registration Rate

If you are attending this 2018 World Family Therapy Congress, you are able to register for the 2019 World Congress in Aberdeen, Scotland at a special price announced at both Plenary addresses and is available at the registration desk.

Stop by the IFTA Registration desk and we will help you register at the special price. This price is good only until Saturday, March 10! THIS WEEK ONLY!
